The Börde District has many regions of farmers and an abundant amount of countryside. But you will also like what its towns and villages have to offer.

For example, when you're in [Haldensleben](#), take a trip to the Hundisburg Castle located outside and south of Haldensleben. It's an impressive old building from the 12th century and with an inspiring and beautiful garden.

Or when you like camping then you will **love** the campground in Colbitz called **Heide-Camp**. It was awarded with five stars by the German Tourism Organisation and is considered as one of the most modern campgrounds in Germany. It's really huge and open all year.
