

## International Health Insurance -- Short-Term And Long-Term

When my today's wife visited me in Germany for the first time I searched for the best travel health insurance available — with a good price. After extensive research I decided for the top-rated German insurance company **Care Concept**.

And since I know that many of my visitors are in a similar situation, I contacted and asked Care Concept to offer travel health insurances for MyGermanCity.com visitors such as au pairs, students, visitors, expats, business travelers, and many more.

Please go ahead and choose the health insurance package that best suites your personal situation by clicking on one of the links below...
