

Ortenaukreis Is The Coolest Part Of The Black Forest

This is good that you arrived here on this page, because the Ortenaukreis in the state of [Baden-Württemberg](#) is, for me, the most beautiful, the most astonishing district we have in Germany.

Ever heard of Rust? That's where Germany's largest Amusement Park, [Europa-Park](#), is. Or what about Bad Peterstal? This town deep in the [Black Forest](#) has one of the cleanest natural water sources. Or perhaps you simply like city flair then you'll want to explore [Offenburg](#), the largest town in this district.

Not only does this district go along the French border, it comprises of a good deal of the best the Black Forest has to offer. In other words, if you love forests, nature reserves, mountains, fresh air, smiling people, and all that, then you really should put this district to your itinerary.

Go for it! :-)
